Limitier

Avian red mite management

Limitier is a natural plant derived combination of bioactives to manage avian red mite infestation which exhibit equivalent efficiency of popular chemicals.

Formulation : Liquid

Feeding Recommendation :

150 ml per 1000 liters of drinking water for one week. Repeat the same recommendation after a gap of one week until desired results are achieved.

Packaging : 1 and 5 liters HDPE bottle

BioCoccin

Plant derived anti-coccidial

Biococcin is a phytogetic coccidiostat combining properties of 5 plant derivatives to reduce and prevent spread of *Eimeria*.

Formulation : Powder

Feeding Recommendation :

500 g per mt of feed OR as directed by veterinarian

Packaging : 25 kg HDPE laminated paper bag

VinCholine

Natural choline conjugates

VinCholine is a “natural source of *Choline conjugates*” which can replace synthetic choline in feed. The phytogetic active conjugates of choline in VinCholine have intrinsic bio-activities on liver physiology, metabolism and ensure maximum bioavailability. The essential fatty acids, phospholipids and other metabolites play significant role in metabolism, enzymatic modulation and biosynthesis of natural form of choline.

Formulation : Powder

Feeding Recommendation :

- Broilers & Breeders : 250 - 350 g / MT of feed
- Growers, Layers & Chicks : 100 - 400 g / MT of feed

Packaging : 25 kg HDPE laminated paper bag

ALINOMEGA

For omega enrichment

The consumption of adequate amounts of omega-3 long-chain polyunsaturated fatty acids has been associated with a number of benefits to various aspects of human health. Alphinomega is an omega supplementation that can help poultry increase these nutrients in chicken and eggs.

Formulation : Liquid

Feeding Recommendation :

Layer : 1000 - 1500 ml / 1000 liter of drinking water

Broiler : Pre-starter : 200 ml / 1000 liter of drinking water

Starter : 500 ml / 1000 liter of drinking water

Grower and Finisher : 1000 ml / 1000 liter of drinking water

Packaging : 1 and 5 liters HDPE bottle

MucoFORT

Holistic respiratory tonic

MucoFort is a microemulsion form of various phytoconstituents that prevents viral or bacterial penetration of the mucosal barrier thus acting as a potent disease preventive system.

Formulation : Liquid

Feeding Recommendation :

200 ml in 1000 liters of water thrice weekly

Packaging : 1 and 5 liters HDPE bottle

HERB OFLOXIN

Natural growth promoter

Herbofloxin is a unique micro - emulsified formulation of phytoactive compound, primarily designed as a non-antibiotic growth promoter and having extraordinary efficacy against *E. Coli*, *Salmonella* and *Clostridium*.

Formulation : Liquid/Powder

Feeding Recommendation :

- Liquid : 250 - 500 ml per 1000 liters of drinking water

- Powder : 500 g - 1 kg per tonne of feed

Packaging : 1, 5 liters HDPE bottle and 25 kg HDPE laminated paper bag

Curcuvin

With beneficial curcuminoids

Curcuvin is considered as a potential candidate for use in animal feed formulations. The continuing research indicates that Curcuvin with its active compound "Curcumin" has unique therapeutic immunomodulatory, antioxidant and hypocholesterolemic properties which can be utilized successfully in poultry industry.

Formulation : Liquid

Feeding Recommendation :

0.5 to 1 liter per tonne in all chicken stages of (Broilers, Breeders & Layers)

Packaging : 25 kg drums

Herbo C

Natural stress buster

Herbo C is a natural source of vitamin C for birds which acts as immunomodulator and stress buster in birds. It is also a rich source of antioxidants which helps in optimizing the body resistance against various infectious diseases and reduce the mortality in young chicks.

Formulation : Powder

Feeding Recommendation :

150 - 250 gm per tonne of feed regularly

OR as per the directions by the Veterinarian or Nutritionist

Packaging : 25 kg HDPE laminated paper bag

TENDERO

Too big too fast ... yet tender

Tendero is a unique combination of phytoactive compounds designed to inhibit the onset of muscle abnormalities or alleviate the severity of symptoms. It is an effective dietary supplement for broiler production systems which provides chicken meat free of these abnormalities like woody breast, white stripping and spaghetti meat.

Formulation : Powder

Feeding Recommendation :

Broiler Finisher Feeds : 2 kg per tonne of feed

Packaging : 25 kg HDPE laminated paper bag

VINSORB - BIO

Broad spectrum toxin binder

Vinsorb - Bio is a unique combination of high grade mycotoxin adsorbents, mold inhibitors and anti-fungal elements along with lipotropic agents makes Vinsorb - Bio a very effective binder for high levels of toxins, even when the nature of toxin is unknown or its presence uncertain.

Formulation : Powder

Feeding Recommendation :

Poultry - Broilers / Layers / Breeders : 500 g to 2 kg per tonne of feed

Packaging : 25 kg HDPE laminated paper bag

HepatoVin

Natural liver protector

Hepatovin is a natural liver protector helps in the protection and enhancement of liver cells to ameliorate liver dysfunctions and to promote better liver health.

Formulation : Powder / Liquid

Feeding Recommendation :

Powder : 250 - 500 g / tonne of feed

Liquid : 1 litre per 1000 litre of drinking water

Packaging : 25 kg HDPE laminated paper bag

1 and 5 liters HDPE can

NuLLTOX

Mycotoxin prevention system

Nulltox is a stable mycotoxin binder formulated from specific ingredients that help in the binding of various mycotoxins present in the feed. Nulltox is highly potent and effective with proven efficacy against economically important toxins. It also prevents mould growth in feed stored in a humid environment.

Formulation : Powder / Liquid

Feeding Recommendation :

Powder : 500 g to 1 Kg/ tonne of feed depending upon moisture level or as suggested by animal nutritionist

Liquid : 1-2 ml per liter of drinking water for 4-5 days.

Packaging : 25 kg HDPE laminated paper bag

1 and 5 liters HDPE bottle

Minerals packed liked nature's own

Organovin strikes a perfect balance between needs and limits of trace mineral nutrition. The composition is designed as per recommendation and bird's consumption rate of trace minerals.

Formulation : Powder

Feeding Recommendation :

• Breeder / Parent Birds : 1 kg / tonne of feed

• Broilers and Layers : 500 g / tonne of feed

OR as per the directions by the Veterinarian or Nutritionist

Packaging : 25 kg HDPE laminated paper bag

DIARRELIF

Manages diarrhea Improves gut health

DIARRELIF is the mixture of appropriately selected herbs and their blends, which positively reduce diarrhea in poultry. Natural fibres present in DIARRELIF help relieve mild-to-moderate diarrhea. The natural composition of DIARRELIF makes it an effective natural solution for diarrhea in poultry.

Formulation : Powder

Feeding Recommendation :

1 kg per tonne of feed

Packaging : 25 kg HDPE laminated paper bag

VINEMULSI

A natural fat digestion & nutrient absorption enhancer for poultry

Vinemulsi, a unique and carefully controlled combination of Lysophospholipids, phospholipids and glycolipids which makes it a natural emulsifier, stands as a perfect solution as it provides benefits across all types of fats and dietary energy density. By optimizing the three steps in lipid digestion, vinemulsi provides producers more consistent fat utilization response and improves animal performance.

Formulation : Liquid / Powder

Feeding Recommendation :

250 - 500 g / tonne of feed

Packaging : 1, 5 liters HDPE Bottle and 25 kg HDPE laminated paper bag

... Because stronger shells matter

Shellvin is a unique combination of precursors of organic shell matrix, enzyme cofactors and organic calcium. It positively influences the formation of the shell ultra structure by triggering the organic constituents of the egg shell matrix resulting in improved morphology of calcite crystals which eventually leads to a better texture and mechanical properties of the egg shell.

Formulation : Powder

Feeding Recommendation :

Commercial layers : 500 g / tonne of feed OR

1000 g / tonne of feed for 1 week in case of severe egg cracking

OR as directed by a veterinarian

Packaging : 25 kg HDPE laminated paper bag

VINMOS

An essential component of productivity

Yeast cell wall like Vinmos is one such important dietary intervention which plays several important roles in animal metabolism to provide the best cost/benefit. Mannon-oligosaccharide (MOS) based nutritional supplement derived from the cell wall of the yeast *Saccharomyces cerevisiae*. It can be used as a Prebiotic, toxin binder, pathogen adherent and an immunomodulator

Formulation : Powder

Feeding Recommendation :

Broilers / Layers / Breeders : 500 g to 2 kg per tonne of feed

Packaging : 25 kg HDPE laminated paper bag

VinRed

Red egg colorant

Vin-Red is a natural pigment used in poultry feeds for broiler skin and egg yolk pigmentation.

Vin-Red is obtained from Paprika extract, mixing with a suitable carrier, resulting in a free flowing powder with standardized activity.

Formulation : Powder

Feeding Recommendation :

Add 300 - 2000 g product into 1000 kg poultry feed

Packaging : 25 kg HDPE laminated paper bag

VinYellow

Yellow egg colorant

Vin-Yellow is a natural pigment used in poultry feeds for broiler skin and egg yolk pigmentation. Vin-Yellow is obtained from marigold flower extract, mixing with a suitable carrier, resulting in a free flowing powder with standardized activity.

Formulation : Powder

Feeding Recommendation :

Add 100 - 1500 g product into 1000 kg poultry feed.

Packing : 25 kg HDPE laminated paper bag

Pelleting solution

A feed pellet binder used as a customized solution based on livestock feed formulation. Vincon is a clay based pelleting system with different selective value addition made as per customers feed formulation.

Formulation : Powder

Feeding Recommendation :

2.5 kg added per MT of finished mash meant for pelleting

Packaging : 25 kg HDPE laminated paper bag

RETENTIO

Optimizes moisture...maximizes savings

The feed mill efficiency is among the primary issue of concern for the animal feed producers of the world. Besides achieving better nutrient utilization and animal performance, retaining moisture level to maintain finished feed weight is of greater economic significance, especially in the light of increasing raw material costs.

Retentio is a unique powder formulation based on the principles of moisture optimizing physical chemistry. The active propionates, biosurfactants and humectants in the product not only retains moisture to desired level, but also prevents deterioration of nutrition and quality.

Formulation : Powder

Feeding Recommendation :

RETENTIO @ 100 g - 500 g in all types of pellet feeds.

(RETENTIO is to be added in 2 % of water / MT and then transferred to the feed mixture as per the process requirements.)

Packaging : 25 kg HDPE laminated paper bag

SWINE PRODUCTS

METALEAN

Protein optimizer for high lean growth

Metalean is a protein optimizer that improves protein synthesis by affecting the protein turnover rates. Supplementing the diets with Metalean not only helps pigs to retain more protein but also lowers nitrogen excretion and improves nitrogen efficiency. It is also recommended to use Metalean to achieve better carcass traits like reduced backfat thickness and improved pork quality (with reference to colour).

Formulation : Powder

Feeding Recommendation :

2 kg per tonne of feed to achieve high lean growth in the finisher pigs OR as recommended by the veterinarian

Packaging : 25 kg HDPE laminated paper bag

KIFAY

Amino acid optimizer

Kifay is a blend of synergistic herb extract. The feed additive is used for improving FCR and weight gain. Kifay plays a unique role in amino acid absorption, protein biosynthesis in liver and improving protein retention in the pigs. The combination of polyphenols and flavonoids increase digestive secretions which helps in nutrient metabolism and absorption.

Formulation : Powder

Feeding Recommendation :

2 kg per MT of starter feed OR 5 to 10 g per head per day

Packaging : 25 kg HDPE laminated paper bag

RELIEV

Holistic herbal respo-relief

Phytogetic compounds of RELIEVO minimize the cough production in the lungs which also resolves the dyspnea and allows oxygen transfer through the alveolar wall. Additionally, the immunomodulatory and antimicrobial properties of herbs enhance immune response of pigs.

Formulation : Liquid

Feeding Recommendation :

1 ml per 5 kg of body weight until recovery

Packaging : 1 ltr & 5 ltr HDPE Bottle

DIAHALT

Rapid relief from diarrhea

DIAHALT is the mixture of appropriately selected herbs and their blends, which positively reduce diarrhea in pigs. Natural fibres present in DIAHALT help relieve mild-to-moderate diarrhea. It soaks up a significant amount of water in the digestive tract, making stool firmer and slower to pass. The natural composition of DIAHALT makes it an effective natural solution for diarrhea in pigs

Formulation : Powder

Feeding Recommendation :

Swine (post weaning diarrhea)

- Prevention : 0.5 - 1 kg per tonne of feed

- Curative : 1 - 2 kg per tonne of feed OR as suggested by veterinarian

Packaging : 25 kg HDPE laminated paper bag

COMFORTO

Relieves discomfort . . . naturally

COMFORTO is a combination of the bioactive compounds which work synergistically to inhibit key mediators of pain and inflammation, such as cyclooxygenase (COX) enzymes, nitric oxide, and pro-inflammatory cytokines. By targeting multiple pathways involved in nociception and inflammation, COMFORTO helps in pain management.

Formulation : Liquid

Feeding Recommendation :

For general pain distress:

3 - 4 litres / 1000 litres of drinking water For acute pain conditions : 20 - 40 ml per pig per day

Packaging : 1 litre & 5 litre HDPE bottle

Anti-diarrheal

Diaboulard is a unique combination of selected fatty acids and naturally occurring substances derived from herbs having strong anti-diarrheal properties, along with *Saccharomyces boulardii*. These constituents synergistically prevent digestive upsets due to bacterial overgrowth or viral infections.

Formulation : Powder

Feeding Recommendation :

250 g per tonne of feed OR as directed by veterinarian

Packaging : 25 kg HDPE laminated paper bag

Natural growth promoter

Herbofloxin is a unique micro-emulsified formulation of phytoactive compound which supports digestion and metabolism in the body, stimulates the growth and development of a useful microbiome, limits the multiplication and adhesion of pathogens, improves the gut morphology and functioning.

Formulation : Powder

Feeding Recommendation :

500 g - 1 kg per tonne of feed

Packaging : 25 kg HDPE laminated paper bag

Natural high gain liquid calcium

CALSOW PLUS is a perfect combination of calcium supplements for a quick and long-lasting effect, enhanced with essential minerals, to prevent and treat a decline in milk production in swine. It also provides the benefits of added glucogenic precursors to prevent energy imbalance during pregnancy and lactation.

Formulation : Liquid

Feeding Recommendation :

For sows during

Gestation : 20 - 30 ml per day Lactation : 30 - 50 ml per day

Packaging : 1 litre, 5 litre HDPE bottles

Improved lactation ... More weaned piglets

PROLIFISOW is a scientifically blended combination of plant-derived bioactive compounds having galactagogue properties. These compounds possess properties that help to induce, maintain, and increase milk production.

PROLIFISOW has added benefits that improve health, growth, and increase production efficiency in sow's. Dietary supplementation of PROLIFISOW leads to more number of weaned piglets per sow.

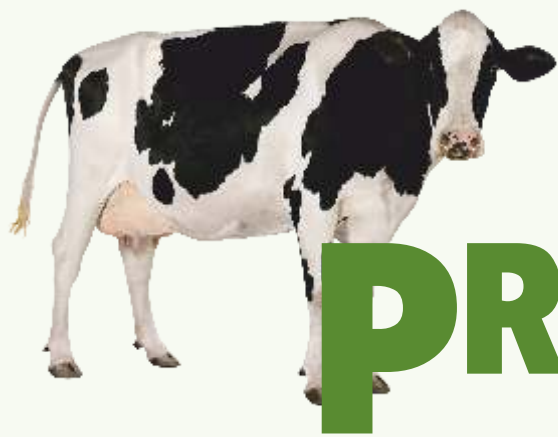

Formulation : Powder

Feeding Recommendation :

2 kg per tonne of feed OR as suggested by veterinarian

Packaging : 25 kg HDPE laminated paper bag

CATTLE PRODUCTS

Recomast

Holistic mastitis management

Recomast is a novel phytogetic combination designed for rapid relief from mastitis, having regenerative and immunomodulatory properties.

Formulation : Powder

Feeding Recommendation :

- 1.5 - 2 kg per tonne of feed
- 20 g per animal per day

Packaging : 25 kg HDPE laminated paper bag

Amino acid optimizer

Kifay is an amino acid optimizer. It acts on insulin like peptides such as IGF-1 which improves amino acid incorporation and protein turnover rate. It reduces amino acid wastage and directs proteogenic nutrition to improve performance. It is a natural feed additive that maintains the anabolic state of the animal.

Formulation : Powder

Feeding Recommendation :

- 2 kg per tonne of feed
- 10 - 15 g per head per day

Packaging : 25 kg HDPE laminated paper bag

VINYEAST-P

Yeast fortified with propioni bacteria

Vineast-P is a unique combination of Live Yeast Culture (*Saccharomyces cerevisiae*) and *Propioni bacteria* (*Propionibacterium freudenreichii*). This novel combination influences ruminal metabolism by manipulating fermentation and ruminal productivity. By maximizing fermentation, the cow obtains more VFA for energy and more microbial protein.

Formulation : Powder

Feeding Recommendation :

- 1 kg per tonne of feed
- Individual Feeding : For Large Animals - 10 to 15 g per day, For Small Animals - 2 to 3 g per day

Packaging : 25 kg HDPE laminated paper bag

VINSORB - BIO

Broad spectrum toxin binder

VinSorb-Bio, is a blend of natural herbs which helps in preventing toxicity in animals. The high grade mycotoxin adsorbents, mould inhibitors and anti-fungal elements along with lipotropic agents makes VinSorb - Bio a very effective binder for high levels of toxins, even when the nature of toxin is unknown or its presence uncertain.

Feeding Recommendation :

0.5 - 2 kg per MT of feed

Packaging : 25 kg HDPE laminated paper bag

CRYPTORID

Managing calf diarrhetics . . . naturally

CRYPTORID is a non-antibiotic animal feed supplement for calves having a blend of plant extracts with high concentrations of phenolic compounds such as tannins, flavonoids, isoflavones, and phenolic acid, boosting calf performance while controlling diarrhea.

Formulation : Powder

Feeding Recommendation :

For incorporating in Calf Milk Replacer (CMR) : Add 80 g Cryptorid in 1 kg of CMR.

(This reconstituted milk from Cryptorid fortified CMR can be given for 3 - 7 days depending on the severity and expected recovery @ 1 litre per calf OR as per local calf rearing practices)

For prevention : 10 g per calf per day (through any drinking carrier) for 3 days

OR as directed by veterinarian / consultant

Packaging : 1 kg and 5 kg aluminium pouches.

MYOGENA

For lean meat quality

Myogena is a phytogenic feed additive that maintains the anabolic state in the animals for healthy body condition score, lean beef gain and appealing carcass qualities. This high-quality weight gain supplement is especially beneficial for show cattle or also to those that require support to maintain a lean built body condition.

Formulation : Powder

Feeding Recommendation :

2 kg per tonne of feed

Packaging : 25 kg HDPE laminated paper bag

VINYEAST

A live yeast culture containing *saccharomyces cerevisiae*

Vinyeast composition is 90 - 97 percent dry matter and can contain from 30 to 45 percent crude protein nitrogen, 25 - 35 percent carbohydrates, and 3 - 7 percent lipids. A quite important fraction of the nitrogen is under the form on nucleic acids (up to 5 - 6 %). The amino acid profile is close to soybean meal and therefore well adapted to animal nutrition. It is rich in glutamic acid and lysine (up to 3 %). Vinyeast is also naturally rich in B vitamins such as biotin, thiamine and folic acid.

Formulation : Powder

Feeding Recommendation : 1 to 3 kg / tonne of feed

Packaging : 25 kg HDPE laminated paper bag

EASYPELL

For efficient pelleting

EASYPELL is an all-purpose, organic binder that is stable at room temperatures and is compatible with other feed ingredients. It enhances pelleting capacity and reduces energy consumption even at a very low inclusion rate. EASYPELL creates uniform pellet quality, resulting in similar pellet hardness. Cattle fed with high-quality pellets absorb nutrients more effectively due to even nutrient distribution and improved digestibility. It offers major benefits to feed operations in terms of cost-effectiveness and nutritional efficiency.

Formulation : Powder

Inclusion rate:

0.5 to 1% per MT of feed

Packaging : 25 kg HDPE laminated paper bag

Innovative AQUA PRODUCTS

Ectoparasite reliever

DEHOOK, an ectoparasite reliever, contains a combination of plant-derived bioactive components having a strong antiparasitic effect. It inhibits *Argulus* by impacting molting and cell proliferation. DEHOOK also helps to reduce infestation and enhance host immunity, avoiding all the unintended negative impacts on the environment.

Formulation : Powder

Feeding Recommendation

For pond application :

As prophylactic treatment - 1 ppm

In case of severe infestation - 5 ppm

OR as recommended by an Aqua consultant

Packing : 1 litre & 5 litre HDPE bottle

NUCLEOVIN-AQUA

Immune system optimizer

Nucleovin is effective in many serious clinical situations even where multiple therapies have failed. Such a synergistic combination, with practically no side effects, can also be used to treat complex aquaculture challenges.

Formulation : Powder

Feeding Recommendation

150 - 250 g per tonne of feed for shrimps

Packing : 1, 5 and 25 kg aluminum bag

For ecofriendly sea lice management

Crustaxe is a synergistic combination of plant derived semiochemicals that precisely targets the planktonic copepod crustaceans by avoiding all the unintended negative effects to the ecosystem. It can be incorporated into the functional feeds as a feed additive to repel the copepods.

Formulation : Powder

Feeding Recommendation

- 1 kg per metric ton of feed (0.1%) for one week (7 days) as a preventive treatment to initiate reduction in host locating behaviour
- 2 kg per metric ton of feed (0.2%) in case of higher mean lice per fish OR as advised by aquaculture expert

Packaging : 25 kg HDPE laminated paper bag

VINYEAST-AQUA

A live yeast culture containing *saccharomyces cerevisiae*

Vinyeast composition is 90 - 97 percent dry matter and can contain from 40 to 45 percent crude protein nitrogen, 25 - 35 percent carbohydrates, and 3 - 7 percent lipids. A quite important fraction of the nitrogen is under the form on nucleic acids (up to 5 - 6 %). The amino acid profile is close to soybean meal and therefore well adapted to animal nutrition.

Formulation : Powder

Feeding Recommendation

- Shrimp / Prawns : 2 to 5 kg / tonne of feed
- Fish : 1 to 3 kg / tonne of feed

Packaging : 25 kg HDPE laminated paper bag

The future proteins

Entopro is an insect derived novel protein source that has potential to sustainably deliver the protein requirement of the future by overcoming the challenges relating to the nutrition, environment, and consumer preference. Insects provide a good source of proteins, fats, vitamins and minerals and are also energetically dense. They can transform the low nutritive waste products into a high protein diet, making them a promising source of alternative protein for replacement in animal feeds.

Formulation : Powder

Packaging : 45 kg HDPE laminated paper bag

PELLETOVIN

Organic binder for high grade pelleting

Pelletovin is an all-purpose, organic, thermo-reactive binder that is stable at room temperatures and therefore will mix well with other feed ingredients. Once the feed mix is exposed to moisture and heat in the conditioner, it binds other feed ingredients.

Formulation : Powder

Feeding Recommendation :

0.25 % - 1 % per MT of feed

Packaging : 25 kg HDPE laminated paper bag

HEHPAVAX

Amino acid optimizer

Hehpavax is a safe biotechnological innovation for controlling *Enterocytozoon hepatopenaei* infection (EHP) and increasing the efficiency of high-quality protein in aqua feeds. It helps to improve the quality which positively influences processing characteristics.

Formulation: Powder

Feeding Recommendation :

- For feed millers : 2 kg per tonne of feed

- For shrimp ponds : 2 g / kg of shrimp feed (For ideal results, mix in all meals per day)

OR as recommended by aquaculture consultants.

Packaging : 25 kg HDPE laminated paper bag

EASYBIND

For economical and ecofriendly pelleting

EASYBIND is an all-purpose, organic binder that is stable at room temperatures and is compatible with other feed ingredients. It enhances pelleting capacity and reduces energy consumption even at a very low inclusion rate. EASYBIND creates uniform pellet quality, resulting in similar pellet hardness and water stability. It offers major benefits to feed operations in terms of cost-effectiveness and nutritional efficiency.

Formulation : Powder

Inclusion rate:

0.5 to 1% per MT of feed

Packaging : 25 kg HDPE laminated paper bag

EASYBIND⁺

Fortified with special components for reducing dusting/fines

EASYBIND PLUS delivers superior pellet durability; it effectively minimizes fines generation during processing, transport, and feeding. It enhances pelleting capacity and reduces energy consumption even at a very low inclusion rate. EASYBIND PLUS creates uniform pellet quality, resulting in similar pellet hardness and water stability. It offers major benefits to feed operations in terms of cost-effectiveness and nutritional efficiency.

Formulation : Powder

Inclusion rate:

0.5 to 1% per MT of feed

Packaging : 25 kg HDPE laminated paper bag

PET PRODUCTS

HEART HEALTH SUPPORT

HERBONUTRA-CARDIO PET WELLNESS WITH NATURE

HERBONUTRA - CARDIO is all-natural formula, exclusively designed to promote cardiovascular health, function and endurance. This formula reduces the oxidative stress, supports overall health and vitality. It improves the pumping activity of heart, strengthens the cardiac muscle.

Formulation : Tablets

Suggested Use:

Up to 25 lbs 1 tablet, daily

20 - 75 lbs 2 tablets, daily

Over 75 lbs 3 tablets, daily

Packing : Available in 60 Tablet HDPE Bottle

Formulation : Premix Powder

Suggested Use:

100 - 150 g / tonne of feed or as directed by veterinarian / animal nutritionist

Packing : 1 kg, 5 kg and 25 kg HDPE laminated paper bag

SKIN HEALTH SUPPORT

HERBONUTRA-DERMA PET WELLNESS WITH NATURE

HERBONUTRA - DERMA is all-natural formula, exclusively designed to promote overall skin regeneration and protective functions. This formula reduces the oxidative stress, improves skin health and coat condition. It builds skin from within, protects against dehydration, pathogens and environmental temperature changes. Also, it significantly reduces the trans-epidermal water loss.

Formulation : Tablets

Suggested Use:

Up to 25 lbs 1 tablet, daily

20 - 75 lbs 2 tablets, daily

Over 75 lbs 3 tablets, daily

Packing : Available in 60 Tablet HDPE Bottle

Formulation : Premix Powder

Suggested Use:

100 - 150 g / tonne of feed or as directed by veterinarian / animal nutritionist

Packing : 1 kg, 5 kg and 25 kg HDPE laminated paper bag

BLADDER HEALTH SUPPORT

HERBONUTRA-NEPHRO PET WELLNESS WITH NATURE

HERBONUTRA - NEPHRO is all-natural formula, exclusively designed to promote urinary tract health and functions in renal ailments. This formula reduces the oxidative stress, supports overall health and vitality. It promotes the flow of urine, soothes the lining of urinary tract by reducing any untoward inflammatory reactions.

Formulation : Tablets

Suggested Use:

Up to 25 lbs 1 tablet, daily

20 - 75 lbs 2 tablets, daily

Over 75 lbs 3 tablets, daily

Packing : Available in 60 Tablet HDPE Bottle

Formulation : Premix Powder

Suggested Use:

100 - 150 g / tonne of feed or as directed by veterinarian / animal nutritionist

Packing : 1 kg, 5 kg and 25 kg HDPE laminated paper bag

JOINT HEALTH SUPPORT

HERBONUTRA-ORTHO

PET WELLNESS WITH NATURE

HERBONUTRA - ORTHO is all-natural formula, exclusively designed to support mobility and flexibility. The formula slows down bone ageing, arthritis and maintains optimum structural & mechanical strength of bones. It is natural anti-inflammatory, antioxidant and pain reliever.

Formulation : Tablets

Suggested Use:

Up to 25 lbs 1 tablet, daily

20 - 75 lbs 2 tablets, daily

Over 75 lbs 3 tablets, daily

Packing : Available in 60 Tablet HDPE Bottle

Formulation : Premix Powder

Suggested Use:

100 - 150 g / tonne of feed or as

directed by veterinarian/animal

nutritionist

Packing : 1 kg, 5 kg and 25 kg HDPE laminated paper bag

HERBONUTRA-ADIPO

PET WELLNESS WITH NATURE

HerboNutra - ADIPO, the holistic product designed to tackle obesity in pets. We understand that your furry friend's health is of utmost importance to you, and that's why we've developed a solution that will help your pet shed those extra pounds and reclaim its vitality.

With Herbonutra – ADIPO, you can rest assured that you're providing the best care for your pet's weight management needs.

Formulation : Tablets

Suggested Use:

Up to 25 lbs 1 tablet, daily

20 - 75 lbs 2 tablets, daily

Over 75 lbs 3 tablets, daily

Packing : Available in 60 Tablet HDPE Bottle

Formulation : Premix Powder

Suggested Use:

100 - 150 g / tonne of feed or as

directed by veterinarian/animal

nutritionist

Packing : 1 kg, 5 kg and 25 kg HDPE laminated paper bag

NERVOUS HEALTH SUPPORT

HERBONUTRA-NEURO

PET WELLNESS WITH NATURE

HERBONUTRA - NEURO is the conventional approach to providing holistic care for pets with nervous disorders. Herbo Nutra - Neuro has a calming, anxiolytic, and anti-inflammatory effect. It is a natural and potentially effective option for alleviating symptoms and supporting overall nervous system health

Formulation : Tablets

Suggested Use:

Up to 25 lbs 1 tablet, daily

20 - 75 lbs 2 tablets, daily

Over 75 lbs 3 tablets, daily

Packing : Available in 60 Tablet HDPE Bottle

Formulation : Premix Powder

Suggested Use:

100 - 150 g / tonne of feed or as

directed by veterinarian/animal

nutritionist

Packing : 1 kg, 5 kg and 25 kg HDPE laminated paper bag

diaretard

ANTI-DIARRHEAL PROBIOTIC

The recent research evidences suggests that the use of ingested living microorganisms play a vital role in the prevention and the treatment of intestinal infections. *Saccharomyces boulardii*, is a fungal probiotic that has an ability of suppression and fermentation of the carbohydrates showing Gram-positive staining property. Being a yeast it has the unique ability to survive antibiotic treatments, thereby allowing them to colonizing the gut .

Formulation : Tablets

Suggested Use:

• 5 - 15 lbs (1 - 7 kg) 1/2 tablet

• 16 - 50 lbs (7 - 23 kg) 1 tablet

• 51 - 73 lbs (over 23 kg) 1½ tablet

(every 24 hours or as recommended by veterinarian)

Packing : Available in 60 Tablet HDPE Bottle

Formulation : Premix Powder

Suggested Use:

100 - 150 g / tonne of feed or as

directed by veterinarian/animal

nutritionist

Packing : 1 kg, 5 kg and 25 kg HDPE laminated paper bag

TOMASHELL

Processed for performance

Tomashell (Tomato peel powder) is one such agro-industrial by-product rich in proteins, fats, minerals, amino acids, dietary fibers, and antioxidant bioactive compounds such as lycopene, beta-carotenoids, tocopherols, and polyphenols. The potential benefits of incorporating Tomashell into animal diet includes enhanced antioxidant capacity, reduction in inflammation, weight management, improvement of immune system and digestion of animal.

Feeding Recommendation :

- **Pets** : 1 - 2.5% in pet food
- **Poultry** : 0.5 - 1% in broiler feeds and 1 - 2% in layer feeds
- **Swine** : 2 - 2.5% in swine feeds
- **Ruminants** : 1 - 2% in cattle feeds

OR as recommended by nutritionist / consultant

Packaging : 25 kg HDPE laminated paper bag

POMOPEEL

Peeled for performance

Pomegranate peel is used in the formulation of various medicinal, nutraceutical and ayurvedic products. It possesses pharmacological activities such as anti-inflammatory, anti-diarrhoeal, anti-oxidant, anti-microbial, immunomodulator, and other effects.

Formulation : Powder

Feeding Recommendation :

- **Pets**: 1 - 2.5% in pet food
- **Poultry**: 0.5 - 1% in broiler feeds and 1 - 2% in layer feeds
- **Swine**: 2 - 2.5% in swine feeds
- **Ruminants**: 1 - 2% in cattle feeds

OR as recommended by the nutritionist / consultant

Packaging : 1 kg, 5 kg and 25 kg HDPE laminated paper bag

CITRORIND

Processed for utility

CITRORIND is a source of dietary fiber, vitamins, and minerals, enhancing the nutritional profile of animal diets. The bioactive compounds present in citrus peel powder, such as flavonoids and limonoids, may offer health benefits for animals, including antioxidant and antimicrobial properties.

Formulation : Powder

Feeding Recommendation :

- **Pets** : 1 - 2.5% in pet food
- **Poultry** : 0.5 - 1% in broiler feeds 1 - 2% in layer feeds
- **Swine** : 2 - 2.5% in swine feeds
- **Ruminants** : 1 - 2% in cattle feed

OR as recommended by nutritionist / consultant

Packaging : 1 kg, 5 kg and 25 kg HDPE laminated paper bag

VIV CHINA - SEP 2025

FAMIQS
